

# AUTHOR GUIDELINE - KGC WORKSHOP 2021

## Actions

- Let us know by email to [dchaves@fi.upm.es](mailto:dchaves@fi.upm.es)
  - If you have any problem with the proposed program by **21st May**
  - Who the presenter of your paper will be by **28th May**
- Share with us your presentation by **4th June** (via email to [dchaves@fi.upm.es](mailto:dchaves@fi.upm.es))
- Join the session you present 10mins in advance

## Program

The program is ready at <http://w3id.org/kg-construct/workshop/2021/#program>.

Note that **the times of the program are in CET**, so please be sure that the possible changes regarding timezones are under your control. We will have 6 different sessions:

- **Session 1:** Experiences in Knowledge Graph Construction
- **Session 2:** Mapping Languages Challenges
- **Session 3:** Methodology users (with a keynote from Jesús Barrara@Neo4J)
- **Session 4:** Machine Learning Approaches for KGC (with a panel of experts)
- **Session 5:** Short & Demo papers
- Session 6 (optional): Beers&Tapas

## Presentation

The presenter of each paper will have max 15 minutes for a talk if it is a long paper and 10 minutes if it is a short or demo paper, plus some time for questions after that. **The talks will be in live streaming, recording is not necessary neither recommendable.** The presenter will have the corresponding permissions to share his/her screen. Please, try to cover the following topics in your talk\*:

- a) what problem you are solving
- b) why it is an important problem
- c) what others proposed to solve it
- d) what you propose to solve it
- e) what makes your solution different
- f) what this means to the audience

Before the event please, do the following tasks:

- Send the final version of your presentation to [dchaves@fi.upm.es](mailto:dchaves@fi.upm.es) before the 4th of June (AoE). In this way, we will have a backup in case of common issues in streaming events (connections failures, sharing screens, etc) happen. Recommendable to share it in PDF, but .PPT(X) is also allowed.
- Install Zoom (if you don't have it) on your computer.
- Test you have a good connection, camera and microphone working.

During the event:

\* Extracted from DeSemWeb Workshop 2017 guidelines

- At least, join the zoom call 10 minutes before the time your **session** presentation starts. For example, if your paper is presented in session 5, you have to be in the zoom channel at XX:XX
- **Send a private message to David Chaves** via zoom let him know you are online and you will be the presenter of the paper.
- Mute yourself if you are not talking
- Enjoy!

### **Registration**

Remember that at least one author of each accepted paper must register for the conference and present the paper there.
